Trinit

CULTURAL CREATIVES | LOHAS | NEW WORLD'S | BLUE GREENS | POSITIVE CHOSERS ...

high-educated, involved, opinionated, active, merely urban, double income, early-adapting, ...

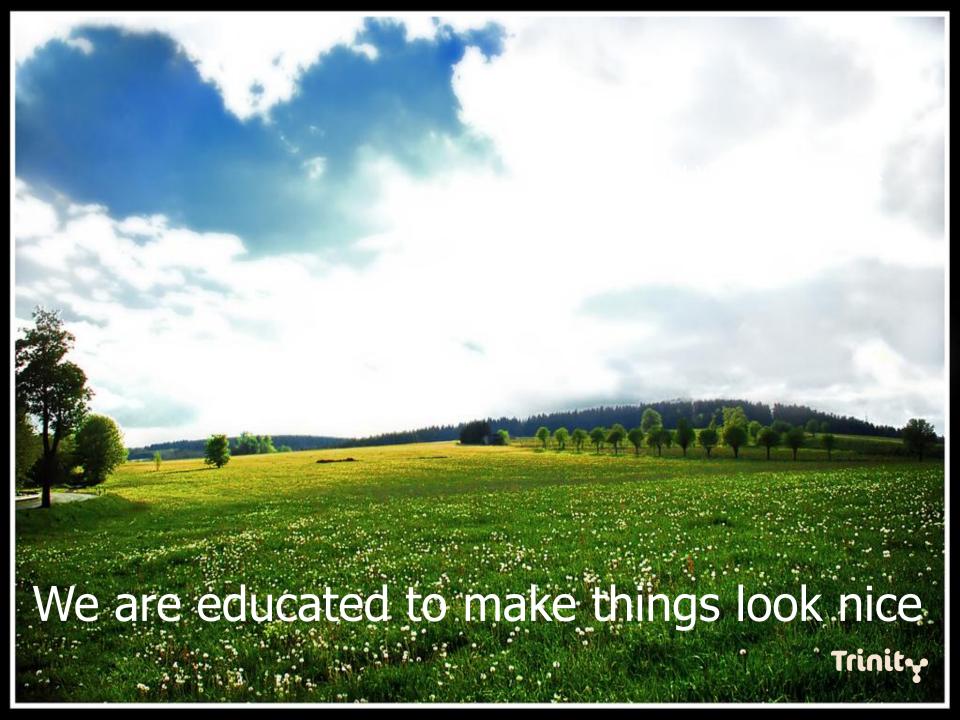

And marketers are starving to get them

Our education: we're motivated to tell the story in the most beautiful way

Why all the fuss? Why is that so bad?

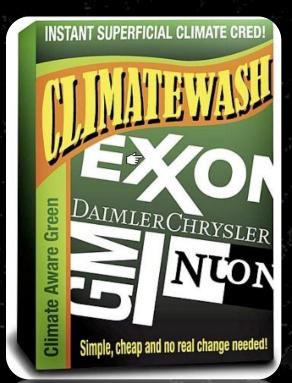

HARMING THE FUTURE

- More complaints against advertising
- Undermining confidence in business
- Sabotage of environmental movement in business. Damage credibility of sustainability
- Feeding cynical views on sustainability

HARMING YOURSELF

- Brand image damage, bad press attention
- Decreasing employer motivation
- Decreasing goodwill of strategic stakeholders
- Honestly...It is simply annoying
- ❖ And last but not least...

2 ways you can avoid greenwashing

Green is normal

"Green Marketing is not about making normal things seem green (greenwashing), it is about making green stuff seem normal"

Be aware of the

"seven sins of Greenwashing":
